## BEST ECO-FURNITURE

It's so fun, so distinctive, and so eco-friendly that proud owners of **LOLL DESIGNS** outdoor furniture send in photos of their sky-blue Adirondacks or leaf-green benches in all manner of wacky predicaments to be posted on the manufacturer's website. The furniture is designed and made in Minnesota, Duluth to be exact, from 100-percent recycle High Density Polyethylene (the milk jugs, detergent containers, etc., that you recycle every week). Loll manufactures exclusive pieces for Room & Board and Design Within Reach; other designs are available only at [lolldesign.com](http://lolldesign.com). Pictured: the adjustable Racetrack lounge in white with apple-red stripe, \$430, available exclusively from [lolldesigns.com](http://lolldesigns.com). Loll Designs, 1325 N 59th Ave. W., Duluth, 877-740-3387.
